

GROUP CONTRACT

- Ground Rules
 - a. Aiming for an A
 - b. Communicating with what we feel confident in so that we can focus more specifically on that
 - c. Being honest with your work, and each other, and ask for help if needed
 - d. Have a weekly check in so we know what we have done to avoid procrastination
 - e. Having group consensus about disagreements instead of voting and leaving one person to not be on the same page
- Three things we don't want to happen
 - a. Avoid procrastination, and check up on each other periodically to make sure we all have what we need done, or see if anyone needs help with anything
 - b. Not communicating. We can make sure we communicate between everyone when we want to change something or do something, and ensure that everyone is on the same page
 - c. People not doing an equal amount of work. Everyone does an equal amount of work, and an equal distribution of the workload.
- I function best in groups when we all communicate about what we are thinking, when we ensure that everyone has the same understanding, and when we understand each others' abilities and are able to provide assistance when needed.
- I really hope our group can get an A and work well together.
